

Reg No: 2017/353532/08

Dear Power of 1000 Donor,

I cannot believe we are another month through and publishing our 2<sup>nd</sup> Newsletter, indeed a lot has happened since August when this initiative was launched.

Our dedicated committee members have been contacting past students to pledge their support so that we can realize the dream to get to 1000 committed pledges in order to ensure sustainability of the project, leaving those that we hand the baton to in 2 years with a solid foundation.

Due to the school having midyear trials and the holidays we only managed to secure a meeting with the school Management Team (SMT) and the School Governing Body (SGB) for the 14<sup>th</sup> October 2017.

The success of the Power of 1000 project can only be achieved with the support of both the SMT and SGB who can provide guidance as to the various initiatives we aim to embark on for the 2018 school year.

These projects are based on work done by the committee having canvassed pupils, teachers as well as community members and some of the private learning institutions across the country.

The complete meeting Agenda is being finalized and will be circulated to the SMT, SGB and to all our donors by Thursday to ensure inclusion and transparency regarding the proposed projects. As this project would not have been possible without you, our generous donor, we request your thoughts as to which projects deserve attention for 2018 once circulated, as well as thought leadership on other initiatives that we may not have considered.

Our hope is that at the 14<sup>th</sup> October meeting, the SMT and SGB will assist in reducing the list to 3 or 4 priority projects and provide thoughts of their own as to other projects which we may have not considered, after all they know the learners much better than we do.

Once the 2018 projects have been agreed on we will communicate these to all our generous donors timeously to ensure an open and transparent process is followed.

Many great inspirational leaders exist within our community and we want to use these talents as much as possible to inspire learners so please drop us an email with suggestions and views.

As our previous newsletter highlighted, the aim of this initiative is to improve the human capital that we have in our community by ensuring our learners and teachers have the tools in their kit to excel beyond the classroom structure, to afford them the opportunity that the privileged private schools offer to students and educators.

We would like to enlist your help in spreading the word of Power of 1000 and get people to contact the team to donate and be a part of this exciting initiative. We also have 1 vacancy on the board and welcome nominations for this post.
